24 March 2020

**VGI CONSULTING (PTY) LTD
STATEMENT WITH REGARDS TO THE IMPACT OF THE COVID-19 LOCK DOWN**

Dear client:

On 23 March 2020 the President of South Africa declared a 21-day long lock down where all South Africans need to stay in their houses, except to buy food, essential supplies and medical assistance.

Due to the fact that we expected a lock down in answer to the rapidly spread of the Covid-19 virus, we were well prepared to proceed with our normal activities, working remotely from our homes. As of today, Wednesday 24 March 2020, all our personnel will be working remotely from their houses.

The normal office bound activities, for example, Project Management, Procurement, Engineering and Design etc. will be able to proceed as normal.

Since all construction work will be suspended on Thursday evening at 24:00, our Construction Management services will not be possible during the lock down period.

Our teams are available for meetings using software like Skype, Teams for Microsoft etc.

We wish you and your families all of the best in these trying times.

Regards

JSM Venter PrEng
